

Dr Tim Pritchard is the Director of the Water Wetlands and Coasts Science Branch in the Office of Environment and Heritage leading a group of about 45 researchers and technicians who provide scientific advice and undertake research in marine and freshwater ecosystems across NSW. Tim studied at Southampton University (BSc Hon), University of Sydney (MSc) and Waikato University (PhD). Research interests focus on multi-disciplinary studies of marine and coastal systems, building on an initial research interest in coastal oceanography.

Tim contributes as a member of the SIMS Scientific Advisory Committee, the Sydney Harbour Research Program Advisory Committee and the SIMS Coastal Processes and Responses Node of the Adaptation Research Hub. He was active in the establishment of the NSW Node of the Integrated Marine Observing System and collaborates with various SIMS researchers.
